About Global TALK

Intolerance is at the root of most conflicts, and the global, critical problem of our time. The escalating rate of negativity broadcast through social media has reached epidemic proportions. Humans are inundated with concepts of separatism and the perpetuation of our ancestors' emotional traumas, due to past atrocities. Intolerance can only be resolved, by proving that regardless of which label we have been assigned, we all want the same things: To be loved and accepted.

Through the Global TALK Movement, we will transform current indoctrinated social beliefs that ignore, and often encourage, intolerance. Utilizing experiential education, we will bridge gaps existing between family and educational curricula. Through interactive exhibits and presentations, participants will see, hear and feel what it is like to be someone else. Demonstrating differing beliefs and kinder behavior responses, through TALK principles, will allow the opportunity for self-realization and positive core emotional trait development.

TALK will inspire a call to action, leading to a paradigm shift. And, by raising one generation of youth that personifies TALK ideals, we'll create a more harmonious, global future.

Dear Change-maker:

We're embarking on an exciting journey to start a consciousness shift, through positive social interaction.

We believe the world needs more TALK (Tolerance, Acceptance, Love and Kindness) and to re-learn the core emotional traits of compassion and understanding.
